FBI CHIEF HOOVER says "New Left" goal is to destroy the U.S. Gavernment.

WASHINGTON - J. Edgar Hoover celebrated his 74th birthday on New Year's Day as he prepared to serve his eighth President in the office of FBI Director.

A message to my brothers and sisters working

for democratic schools. By Steve Whitmarsh, organizer of the North Side Students Association

On February 17, I enrolled in MacArthur Senior High School. o ior High School. On the 18th I was indefinitely suspended. This is in the Aldine School District, not known for its liberality. I was organizing a truly representative student group for the purpose of political (read RADICAL

radical) and political action.

Let it suffice to say that by the second day the organization numbered from 20 to 25 members, all types of people, all classifications. The group had no constitution. had solicited no funds. had circulated no petitions, had passed out no literature. It was just beginning, just being formed. Many people, however, had offered to write for the proposed paper, many people were going to draw for it, many people volunteered to type. Typing paper was donated, at least 500 sheets.

The response was terr ific.. We were just getting our (feces) together, just getting ready to apply for official recognition when the(feces) hit the fan. As you can see, our request for official recognition and our "aims sheet" were both very mild, containing nothing alarming or radical. We planned to work gradually. Starting at the beginning, official recognition. We were prepared to work within the laws.

Then someone who hated me for no really apparent reason went to the principal, and told him I was organizing a "militant student group" fashioned after SDS.

Because of the lies of this girl, and because I was associated with SDS, and trying to get the students together, I

If one holds these qualifications for the CO status, there is one further requirement. He must convince the board. If the board does not agree and refuses to violate his beliefs, there is only one other alternative:

NON-COOPERATION

Many people feel that the government should not have the right to decide who has a conscience and who does not. These people often risk prosecution by sending their draft cards back to the draft board, burning the card or ignoring it. Other persons become noncooperators when they are refused CO status.

"Asqueado" was not merely avant-garde, but genuinely underground? Nor was it a typical example of the high-school press. Every was highly refined; a polished product of patience and skill. A publication keyed especially for low circulation, we printed ten copies a week. The mame "Asqueado" lent a strong revolutionary flavor to the paper, as well as promoting a healthy spirit of protest for those who knew the word actually meant "disgust" Though the paper was "spirit duplicated" all on a single page, every square inch was crammed with material of a most seditious nature. Every article printed was chosen for its extremely subversive content while even the headlines were pornographic. But to avoid creating much of a stir, we lettered them in Russian, But Asqueado was not destined to flourish into the full flower of wibrant awant-garde. Despite the spirit it had momentarily aroused it never recieved adequate support in the endeavour, So, after three glorious issues, Asqueado silently receded into the oblivion for which it had once briefly emerged.
